PROFILE

- Full-Stack Software Engineer with 4+ years of experience building scalable web applications using React, Node.js, and TypeScript. Skilled in GraphQL, REST APIs, and modern testing (Jest, React Testing Library), with a strong focus on clean, maintainable code.
- Experienced in developing end-to-end solutions, collaborating with cross functional teams, and contributing to product improvements in remote, international environments

EDUCATION

Micheal Okpara University Of Agriculture Umuahia, Nigeria

Bachelor of Engineering, Computer Engineering, 2025

- Relevant Coursework: Digital Systems Design; Computer Architecture; Data Structures and Algorithms; Microprocessors and Embedded Systems; Software Engineering; Database Systems; Computer Networks.

Federal Government Girls' College Owerri

Senior Secondary School Certificate, 2018

WORK EXPERIENCE

Full-Stack Engineer - Gateways Healthcare

October 2025 – January 2026

- Developed and deployed a full-stack web application using React, Next.js, Node.js, and TypeScript, delivering scalable and responsive user interfaces.
- Built and integrated RESTful and GraphQL APIs for efficient data fetching and improved application performance.
- Implemented authentication, role-based access control, and secure backend services.
- Wrote and maintained unit and component tests using Jest and React Testing Library, improving application reliability and reducing bugs.
- Conducted code reviews, ensuring adherence to clean code principles and maintainability.
- Contributed to product decisions, feature improvements, and technical architecture discussions.

Junior Full-Stack Engineer - IBK Digital Solutions

July 2025 – December 2025

- Troubleshoot and resolved production issues across full-stack systems, improving uptime and system reliability.
- Collaborated with developers and product teams to enhance application performance and user experience.
- Assisted in backend system monitoring, API performance tuning, and debugging Node.js services.
- Maintained technical documentation and contributed to improving engineering workflows.
- Participated in agile ceremonies and cross-functional coordination

Full-stack Engineer (Intern / Contract) - TrendLarma

September 2024 – December 2024

- Collaborated with team members in building core modules of the e-commerce platform, including product listings, shopping cart, order tracking, payment workflows, and analytics dashboards.
- Collaborated in offering technical support during integration and troubleshooting phases to maintain smooth operations.

SKILLS

- **Web & Software Development:** React, Next.js, TypeScript, JavaScript, Node.js, REST APIs, Authentication Systems (NextAuth.js/Auth.js)
- **Project & Process Management:** Agile Methodologies, Project Lifecycles, Stakeholder Communication, Process Streamlining, Technical Documentation, Best Practices Implementation
- **Data & Tools:** Python (Pandas, NumPy), Data Analysis & Visualization, Git, Docker, VS Code, Trello
- **Others:** Attention to Detail, Decision Making, Fast Paced Environment Adaptation, Website Maintenance & Updates

PROJECTS

Full-Stack Web Application – AfriTech Builders

<https://www.afritechbuilders.com>

- Built and deployed full-stack web application using React, Next.js, Node.js and TypeScript.
- Developed a secure admin dashboard for managing users, products, and platform content.
- Integrated Paystack payment gateway to handle end-to-end payment workflows, including transaction verification and error handling.

Food Ordering Web Application – The Hallalovens

<https://hallalovens.vercel.app/>

- Developed a full-stack food ordering platform using React, Next.js, Node.js, and TypeScript.
- Built dynamic features including menu browsing, cart system, order placement, and order tracking.
- Implemented responsive and user friendly UI to enhance customer experience across devices.

VOLUNTEER EXPERIENCE

Guest Speaker – Debyary SchoEx (First Edition)

April 2026

- Delivered a technical session on positioning in tech to an audience of students and early career developers.
- Engaged with participants through Q&A, demonstrating strong communication and knowledge sharing skills.

Online Volunteer – Graphic Designer,

United Nations Development Programme (UNDP), Djibouti (Remote)

- Designed layouts, graphics, and infographics for annual reports in French and English.
- Collaborated with communication teams to align designs with UN branding guidelines.

LANGUAGES

- English: Fluent
- Igbo: Fluent
